| Rail | 5.1 | 13.2 |
| Bus/coach/ minibus | 3.0 | 2.4 |
| Motorcycle/ moped | 0.5 | 1.1 |
| Taxi | 0.0 | 0.4 |
| Other | 0.5 | 0.4 |

Question from Councillor O E K Wells

“Could the Portfolio Holder responsible state if statistics are recorded for the proportion of Council staff travelling to work by foot, bicycle, bus or train and if so what these figures are? Is it possible to break these figures down for comparison with Councillors travel methods? How does the proportion of WBC staff travelling by each method differ with the general population of Woking?”

Reply from Councillor J Kingsbury

“As part of the Council Travel Plan, periodic surveys are undertaken – the last one being in October 2005. The position at this date for those staff who responded to the survey was as shown below. The data for Woking respondents is taken from the 2001 census.

There is no data available on modes of transport for Councillors.
